To register go to [click here](#)

The Membership University is geared toward chapters who have 75+ members. This program is to help chapters improve their existing programs. The representatives attending are encouraged to take notes, ideas, and exercises back to their chapter and teach the other members the knowledge they gained to help you. A few topics covered are: Non performing officers and chapter members , building up new/younger leaders & succession planning , and rituals: what they mean to your chapter and how to use them to help you.

Due to space and limited resources, each chapter is only able to **send three members** to the Membership University.
